The **TekTop™** roof coating product line offers solutions to repair and prepare your roof for restoration with our **TekTop Silicone Roof Coatings by Simiron**. Properly installed Silicone systems offer a monolithic edge-to-edge membrane with superior ponding water resistance that will extend the life of your roof for years.

TEKTOP™ SINGLE PLY TPO PRIMER

TekTop™ Single Ply Primer is a fast-drying single-component primer that provides increased adhesion to EPDM, PVC, TPO, and Hypalon (CSPE) single-ply roof membranes and other difficult to adhere substrates.

This easy to apply product keeps production going minimizing downtime. The blue tint in the primer provides a visual guide for accurate application. **TekTop™ Single Ply Primer** goes on thin and provides excellent coverage rate in a low VOC formula.

FEATURES + BENEFITS

- Improves adhesion on new and aged Single Ply membranes
- High coverage rate
- Low VOC
- Single component
- Blue contrast color

TEKTOP™ BITUMINOUS PRIMER

TekTop™ Bituminous Primer is uniquely formulated as a single-component, water-based primer to provide simple and effective adhesion to BUR, SBS, and APP bituminous roofing surfaces.

The primer can be applied thin as a bond coat or thick as a bleed-blocker to encapsulate and prevent any discoloration from asphalt and bitumen roofs. **TekTop™ Bituminous Primer** can also be used to prime metal roofs and flashings. The yellow tint in the primer provides a visual guide for accurate application.

FEATURES + BENEFITS

- Improves adhesion on new and aged Bituminous membranes
- Use as a Bonding Coat or Bleed-Blocker
- Low VOC
- Single component
- Yellow contrast color

TEKTOP™ SILICONE LIQUID FLASHING

TekTop™ Silicone Liquid Flashing is a uniquely formulated brush-grade silicone mastic designed as a thick, sag-resistant, 1-step application to easily fill seams, cracks, breaks, tears, and holes. Use prior to **TekTop™** roof coating application or as a repair mastic.

The excellent UV resistance in this mastic will not degrade from the sun's harmful rays. **TekTop™ Silicone Liquid Flashing** remains permanently flexible while resisting cracks or leaks to create a smooth, strong roofing surface.

FEATURES + BENEFITS

- 100% compatible to **TekTop™ Silicone** roof coatings
- First step to sealing roofs prior to coating application
- Can be used as a repair mastic
- Single component
- Can be applied in multiple layers

TEKTOP™ 100% SILICONE ROOF COATING

TekTop™ 100% Silicone Roof Coating is a solvent-free moisture-curing silicone coating designed to permanently renew and restore existing roofs against leaks, ponding water and other damaging weather by forming a durable, seamless membrane in just one coat.

TekTop™ 100% Silicone Roof Coating offers UV resistance using a highly reflective white coating to help keep buildings cool – gray and tan available too. The oxime curing mechanism allows for recoating and compatibility with virtually any substrate. Apply on low-sloped roofs to strengthen and extend the life of your roof surface.

FEATURES + BENEFITS

- Solvent free
- Single coat application
- Superior ponding water resistance
- VOC compliant nationwide

TEKTOP™ 100% SILICONE ROOF COATING—HB

Similar to **TekTop™ 100% Silicone Roof Coating**, **TekTop™ 100% Silicone Roof Coating—HB** is a "high build" formulation designed to be applied to steep slopes, curved roofs, barrel roofs, parapets, and other vertical surfaces while mitigating sag. Apply in a single-coat to restore existing roofs against leaks, ponding water and other damaging weather.

TekTop™ 100% Silicone Roof Coating—HB is the perfect solution for smaller jobs including mobile homes and recreational vehicles. The high build formulation will adhere to any surface condition encountered on your roof project. Apply on any roof to strengthen and extend the life of your roof surface.

FEATURES + BENEFITS

- Solvent free
- Single coat application on steeper to vertical surfaces
- Superior ponding water resistance
- VOC compliant nationwide

TekTop™ high-performance roof coatings protect your roof from the elements. Our full line of **TekTop™** roof coatings are formulated to renew and restore your roof.

Save your time and your money— with a **TekTop™** roof coating.
